**Secured Infinity Protection** — A unique concept that insures your Infinity Bonus becomes a true residual income. Once you begin earning an Infinity bonus on a person based on your particular Achievement Rank, that Infinity Bonus on that person for that particular Rank is stamped as yours, even when someone in your organization reaches the same Achievement Rank. As people on your team continue to advance in Rank, they are afforded the same protection as people on their team advance in Rank.

## What do I need to do to maximize my income?

Have 100 points monthly AutoShip in place, and start sharing the product with others. We suggest you enroll at least (8) people to build a business with and teach them to do the same. If you continue duplicating this action, you will create a solid and residual income for yourself.

## What does Dynamic Compression mean? How does it work?

Dynamic Compression is similar to an infinity bonus, which allows you to get paid not only on your guaranteed levels but to the bottom of your organization if you hold the highest rank within your downline group. Every time someone places an order, the commission system looks for seven (7) upline qualifiers to receive the bonus. If someone doesn't meet the qualification, the system will continue searching for an upline qualifier until all earned commissions are paid out.
